PrestaShop

Easebuzz Payment Integration Document

Introduction

This guide will show you how to Install and configure the Easebuzz plugin for Prestashop 1.6 on your Prestashop 1.6 website for payments through Credit Card, Debit Card, Net banking and Saved Cards.The plugin supports Payment through Easebuzz payment platform. This plugin is compatible with Prestahop version 1.6.x

Install

1) Login to Admin panel.
2) Go to Magento **Admin Panel > Modules & Services > Add New Module > Select zip file to upload** (from your computer) > click **Upload this module** .
3) Search for "Easebuzz Payment" from module list and click on "**Configure**"
4) Configure the module as shown in the configuration section.

Configuring the Plugin

1) Search for "Easebuzz Payment" from module list and click on "**Configure**"
2) Fill up the following configuration details.
    a) **Configuration:** Review screenshot for module configuration for store
    b) Environment:
    This field determines the gateway environment your payment will be redirected to. This field can have two values:
        i. **Sandbox:** This is a test environment. No actual fund transfer will take place.
        ii. **Production:** This is the live environment. Use this value only for your website in production. Payments sent in production environment will actually get processed.
        # For testing purposes we suggest only use sandbox.
    c) **Easebuzz Key:** If you have received Easebuzz credentials then enter this info.
    d) **Easebuzz Salt:** If you have received Easebuzz credentials then enter this info.
    e) Click on **Save Config**, Now user can make payment via Easebuzz Payment.
